

Amelia Earhart led a life of daring adventures! Born in 1897, she grew up during the early years of flight and became a record-breaking pilot known around the world.

There is more to life than being a passenger!

In 1928, Amelia was a social worker helping immigrant families and flying whenever she could. She was one of the few women with a pilot's license.

Miss Earhart, you have an urgent phone call.

Would you like to make aviation history?
