OXFORD
UNIVERSITY PRESS

Doodle and Dot are best friends. They do everything together. Most of all, they love making things. Today, they are drawing shapes.

What's your favourite shape, Dot? I love drawing rectangles.

My favourite shape is a square. All the best things are squares . . .

. . . chocolate, a magic box, presents . . .

And circles are great! A circle can
be so many things . . . a hula hoop,
an orange, a sun . . .

. . . a window!

Even though Doodle and Dot are best friends,
they don't ALWAYS agree.

Oh Dot, we forgot about
TRIANGLES! I LOVE triangles.
And with triangles we can create . . .
triangle aliens!

Doodle, no! Triangle
aliens sound like trouble!

But Doodle is now
having too much
fun drawing to
listen to Dot.

Just one more
triangle to add to
my rocket!

Doodle, stop!
I don't want to be
in a rocket!

**BLAST
OFF!**

3, 2, 1 . . .

Doodle and Dot are zooming through space . . . but can you see who else has come along for the ride?

A child wearing a space suit with a red helmet and a yellow scarf is floating in space. The child is holding a red pencil. The background is a dark blue space filled with various planets, stars, and a large yellow sun. A speech bubble is connected to the child by a blue line. The child's suit is made of crumpled aluminum foil. The space is filled with various celestial bodies, including a large yellow sun, a large grey planet with craters, and several smaller planets in shades of green, blue, and white. The overall scene is a whimsical, hand-drawn illustration of space travel.

I feel space sick.

Look at all these planets! Let's land on that one down there.
